

## BIG SMUGGLING RING UNCOVERED BY GOVERNMENT

### Report on Methods of Bringing Aliens and Liquor in

(By The Associated Press)  
WASHINGTON, Sept. 25.—Smuggling of European aliens into the United States from Cuba, surreptitiously and temporarily in the waters off the Florida coast, of large quantities of liquors by "international bootleggers" and "black marriages" designed to enable entry into this country of women barred by immigration laws form the basis of a report submitted to Secretary Davis by the bureau of immigration.

This report Commissioner General Husband said today, is the most comprehensive review of smuggling conditions ever prepared by immigration officials and is expected to be considered by the treasury, labor and agriculture departments in connection with the proposed coordination of border patrol forces.

Government investigators, by direction of Mr. Husband visited Jacksonville, Tampa, Tarpon Springs, Miami, Key West and Havana. They mingled it is said with the kings of the smuggling industry and talked with aliens of every nationality who sought entry to the United States.

The data gathered it is stated will prove invaluable to the government in coping with a situation which has taxed the ingenuity of federal agents to combat.

### Extend European capitals

The smuggling ramifications, it is declared extend to the capitals of Europe and involve Greeks, Spaniards, Poles, Jews, Roumanians, Russians and Chinese.

The report states that the favorite method of gaining entry to the United States from Cuba for certain alien women has been for them to enter into fake marriages with naturalized American citizens who, for certain considerations go thru mock ceremonies and then accompany their wives to some Florida point. Frequently it is said obliging bridegrooms have been paid as high as \$200 for their part in the scheme. The principal smugglers in Havana the investigators declare do not confine their activities to smuggling aliens into the United States but also handle whiskey and narcotics. The majority of the leaders are said to be naturalized Americans.

A great many of the smuggling craft, it is declared, land and depart from Matanzas, are of Cuban registry and do not enter or clear at the custom house there. Names used by the schooners and power launches, it is declared are inscribed on plates removable, and some vessels are said to carry several name plates.

There is no employment in Cuba for thousands of the Chinese and European aliens now there, it is reported, yet since the present passport and amended immigration restrictive act became operative in this country last May at least 7,000 aliens are said to have arrived in Havana with the ultimate hope of gaining surreptitious entry into the United States.

The usual fee charged for smuggling aliens, it is learned, ranged from \$500 to \$1,000 for each Chinese and about \$150 for an European alien.

## AMERICAN LEGION MAY BE FACED BY \$48,000 DEFICIT

### Routine Business Blocked While Members Argue Question

(By The Associated Press)  
ROCK ISLAND, Ill., Sept. 25.—A threatened deficit of \$48,000 blocked the consideration of routine business today at the opening session of the Fourth Annual convention of the Illinois Department of the American Legion.

In a debate over the deficit charges were made that there had been irregularities in the expenditures but these were met with cries from the delegates that the speaker be ejected from the convention. Officers explained that expenditures to aid needed ex-soldiers were larger than had been expected. It also was said that notes protecting the persons from whom the department had obtained the unliquidated funds were personally signed by William McCauley, the department commander.

General Abel Davis of Chicago, in an impassioned speech, pleaded for unity and reason and at this suggestion the delegates voted to refer the matter to the executive committee with instructions to report tomorrow morning on ways and means of reducing the department debt.

The report of the resolutions committee also will be received by the convention tomorrow and is expected to contain criticism of the recent presidential veto of the soldier bonus bill and condemnation of those who have expressed opposition to the Illinois state compensation bill.

The convention will be asked to recommend to congress the adoption of the National anthem a song written and composed by William G. Jahnel.

## THIS WON'T BE BAD NEWS FOR MOST OF US

(By The Associated Press)  
WASHINGTON, Sept. 25.—Sam Robinson has been the house leg man for the Congressional Record almost since the time it began publication. He is about the only popular reporter on the bill. Six nights a week he has gone to the government's big printing plant with enough copy to choke an elephant. He never fell down—until today.

After tramping thru the house and official buildings until he was weary, Sam produced such a small lot of bright, snappy items that the editor decided not to go to press tonight—and that too on the heels of Carpenter's collapse and with the world series almost at the ball fan's door.

Before the house adjourned nearly everybody got permission to print undelivered speeches and like a good reporter Sam went to get them; But in most cases he found nobody at home.

"Not your fault Sam," said the editor, "run along to the movies and try again tomorrow."

And that's why the Record missed the mails and why it won't be on your breakfast table in the morning, with its hot stuff and its features.

## NO SCRAPPING OF SHIPS AT PRESENT

(By The Associated Press)  
WASHINGTON, Sept. 26.—Secretary Denby announced today that there would be no scrapping of battleships until after the five power naval treaty has been ratified by the last of the subscribing powers. France and Italy have yet to ratify the pact.

Five obsolete battleships have already been sent to the scrap heap, but it was said that although named in the treaty, they would have been scrapped anyhow. They are the Virginia, Rhode Island, Nebraska, Georgia and the New Jersey.

Officials, it was indicated, have felt that the near east situation might lead to some of the signatories changing plans regarding the scrapping of vessels beyond the treaty provisions.

## ALTON EMPLOYEES HAVE NOT ACCEPTED TERMS

Bloomington, Ill., Sept. 25.—Following another series of conferences today between the Federated Shop Crafts committees and officials of the Alton railroad the agreement as drafted Sunday by Receiver Blier of the Alton had not been formally accepted. ## JAPANESE WILL NOT GIVE DATE OF EVACUATION

### Conference With Chi-ta and Soviet Governments Fail

(By The Associated Press)  
CHANG CHUN, Manchuria, Sept. 25.—The conference between Japan the China government of the far eastern republic of Siberia and representatives of the Moscow soviet government ended in failure today with Japan's refusal to fix a date for the evacuation of Northern Sakhalen.

The conference adjourned last week for both sides to await instructions from their respective governments from the Russian demand that Japan quit the northern half of the island of Sakhalen which she is holding until indemnified for the massacre of 600 Japanese at Nikolaievsk in 1920.

Today Mr. Matsudaira, head of the Tokyo delegation notified the Russians that his government had declined to fix a date for withdrawal from the debated territory. He declared that Japan firmly adhered to her policy of retaining that territory as a pledge for reparations for the Nikolaievsk massacre.

Further Mr. Matsudaira stated it would be impossible for Japan to meet the Russian demand for a promise of the evacuation of Sakhalen as a preliminary to the negotiation of a trade agreement with the Russian soviet government.

Mr. Matsudaira then recommended that the conference adjourn after placing responsibility for its failure on Russian shoulders.

Adolph Joffe, representative of the Moscow government, then declared: "The Russian people, who number 150,000,000 and occupy one sixth of the globe cannot consent to be treated as Barbarians. The whole world disapproves of Japan's occupation of Sakhalen. Even such an enemy of the soviet government as Secretary of State Hughes of the United States at the Washington conference denounced Japan's military expansion in Siberia."

Joffe asserted the Russians had come to the conference in good faith for the purpose of concluding a trade agreement and settling Siberian questions which menaced the peace of the Far East. But he added, they could not consent to Japan keeping Sakhalen as a pledge for indemnification for a massacre for which Japanese troops had been responsible.

The Russian delegates expect to go to Peking where they hope to negotiate a trade agreement with China.

Admiral Long will proceed with the Pittsburgh direct to Constantinople to confer with Rear Admiral Mark Bristol, American high commissioner there and familiarize himself with the Near Eastern situation.

At the navy department it was emphasized that Admiral Long's visit to Constantinople was in the natural course of events and that is in no sense a diplomatic mission.

## British Believe War Crisis Is Now Past

(By The Associated Press)  
LONDON, Sept. 25.—Smiles, which wreathed Lord Curzon's face as he departed from the prime minister's official residence this afternoon after making a detailed report to the cabinet of his Paris mission typified the general easing up of the tensions in the Near East situation as viewed from the British capital.

Everywhere in official circles there are expressions of relief that the war crisis of last week has been replaced by old school diplomacy with such an old hand as Curzon directing the British policy and also there is no word that the allied note has been delivered to Mustapha Kemal Pasha, it is intimated that his refusal to come to terms is extremely unlikely.

The view is held in authoritative circles that immediate acceptance would be against Turkish trading propensities. It is said that the Turk in bargaining always want a first offer made to him. Then he holds the other to it and angles for further concessions. The allies have made Kemal Pasha a definite offer of Constantinople, Thrace to the Maritza river and membership in the league of nations, but it is believed that Kemal probably will reply with a demand for all of Eastern Thrace and complete retirement.

That all danger is not past is evident from today's despatches reporting a new Kemalist incursion in the Chanak zone, necessitating a further warning from the British commander there. Details of the affair are meager and it may not be serious since according to 'The Times' Chanak correspondent, small Turkish cavalry patrols were still in the zone yesterday but he anticipated no difficulties as the Turks were showing a genuine desire to be reasonable. Even when Kemal's reply is received there are likely to be prolonged negotiations for it is believed that Kemal will demand the admission of Russia and Bulgaria to the conference, which in itself would provide ample opportunity for protracted discussions. Meantime, the British government is not relaxing its military and naval preparations. More battalions of guards are making ready at Aldershot for early embarkation.

## SEVERAL CLUES ARE FOUND IN DOUBLE MURDER

### New Believed That Rector and Mrs. Mills Intended to Elope

(By The Associated Press)  
NEW BRUNSWICK, N. J., Sept. 25.—Several clues were found today by detectives investigating the double shooting of Rev. R. W. Hall, rector of the church of St. John the Evangelist and Mrs. James Mills, wife of the sexton to support the new theory that the couple intended to elope to the Orient.

The fate which the rector and the leader of his choir shared, prosecutors pointed out might have been hastened by rumors which seemed to have been circulated freely among certain members of the congregation that plans of the two to leave New Brunswick had reached a stage of action.

All his papers and effects had been placed in such order by the slain rector detectives said they learned, that the work of the pastor could be undertaken by a successor with the least possible difficulty. The books of the church and all funds, mission and charitable work were left in a condition, it was said, that would have enabled a successor easily to proceed with the rector's duties.

The first inkling received by the authorities of an intended elopement came when Prosecutor Stricker of Middlesex was informed that a relative of Mrs. Mills had a letter from her in which she herself told in detail of her plans to elope to Japan with Mr. Hall.

Detectives are seeking a woman, who, while attending the funeral services of Mr. Hall is reported to have remarked in an audible tone to her neighbor: "Well, (they are carrying him out of the church now. They didn't get to Japan after all."

(By The Associated Press)

Herrin had the largest representation among those furnishing bond.

A blanket bond was made for all of the indicted men in court and the bondsmen agreed to stand responsible for everyone of the indicted men. The six held without bail are Otis Clark, Bert Grace, James Brown, negro constable; Leva Mann, Philip Fontannetta and Peter Hiller, with Oscar Howard and Jesse Childers ordered held without bond as soon as they are apprehended. Those for whom bond was made for \$20,000 are Percy Hall, Joseph Carnegie, Chas Rogers, John Kelly, James Galligan and James Norris.

There are thus a total of 52 indictments for murder. Those held without bail are said to have been the leaders of the riots and all of them are indicted on more than one charge. Their trials will be held first under present plans.

Counting the eleven men released on bond for conspiracy and rioting, 28 persons are still at liberty including seven charged with murder.

The appearance of the indicted men in court was the occasion for a crowded court room. Spectators thronged the room, crowding the doors and sitting in the windows. Many women were among the spectators.

## BRITISH OFFICIAL DISCUSSES NEAR EAST SITUATION

### British Ambassador Calls on Secretary of State Hughes

(By The Associated Press)  
WASHINGTON, Sept. 25.—Sir Auckland Geddes, British ambassador was among Secretary Hughes' callers today on the latter's first day back at his desk in the state department after an absence in Brazil of several weeks. While no statement as to the nature of the conference was forthcoming either at the embassy or the department, there were indications that the Near Eastern situation was among the subjects discussed.

Unofficial advices from London have indicated that the British government would welcome American participation in the proposed conference to determine the final disposition to be made of the Dardanelles and the Bosphorus. It was regarded as probable that the British ambassador had sought to learn from Mr. Hughes whether an invitation to send a representative to the conference would be heard by the Washington government.

American intervention in the Near Eastern situation has been strictly confined to relief work at Smyrna. The work of rear Admiral Bristol as high commissioner at Constantinople has not gone beyond that object.

It is obvious that with a growing merchant marine the Washington government has a very material interest in any question involving freedom of the Dardanelles and the Bosphorus to merchant craft of all nations.

Whether this interest in the Washington view, could be adequately safeguarded without participation in the proposed conference with the Turkish nationalists, authorities has not been disclosed.

There are important American considerations involved in the state department's treatment of Near Eastern crisis. The subject it is thought, may well come up at the cabinet meeting tomorrow now that Mr. Hughes has returned and a final decision may be reached there as to the attitude the United States will take toward developments arising from the allied Kemalist peace negotiations.

## BOLSHEVIK RULE IS SLOWLY BEING REPLACED-BELIEF

### Peasants Establish Local Governments by Hundreds

(By The Associated Press)  
PARIS, Sept. 25.—Boris A. Bakmeteff, lately Russian ambassador at Washington is sailing Wednesday for America, after an extended trip of inquiry and observation which led him to the belief that the Bolshevik government of Russia is being slowly displaced from below by the self governing peasant communities.

"The peasant populations of the old communities and 'volosts of Russia' said M. Bakmeteff, have succeeded in establishing independent government using the local soviets but transforming them into what approached local Zemstvos. These peasant groups have populations of five to six thousand with the local administration in the central village. 'Volosts' imposed usually of the well to do, mature and capable peasants who are chosen for the committee by some sort of election. These committees administer justice, do the policing and take care of all local functions. The strength and efficacy of their government varies from place to place. It is usually stronger where the population is better off. Same times the local parliament is in the hands of a local patriarch."

"These local rudimentary governments have sprung up by hundreds all over Russia. They are an evolution from below. They are not what one would call a revolutionary opposition to Moscow but they are really independent. The Moscow commissaries have been forced to leave. The same things have happened to the younger ruffian elements that went about robbing and terrorizing."

"The central authorities are practically powerless to combat this growth. It is impossible to send troops against these formations. These communities are so numerous that the central authorities would have to maintain garrisons or conquer the whole of the land. Lenine has long since realized this new and unconquerable foe of communism—the peasant."

### Fail to Win Peasants.

"All the so-called new policy has been an attempt to win the peasant. It has not worked. The peasant distrusts the Bolshevik official and will not cooperate. The peasant has grimly entrenched himself, leaving the central power to shrink and die. The sources of the central power are consequently drying up month by month. The left or extreme wing is again in control in Moscow. But there is a violent rift between the factions within the party."

"The situation in certain respects may be compared to the French revolution at the time of the fall of Robespierre. Robespierre was overthrown by the more moderate elements in the convention who saw no future for France in Robespierre's stilted ideas and terrorism. Something of the same sort may start the next phase of events in Moscow."

M. Bakmeteff concluded by saying that the basis of the present peasant movement was the right of property and respect for law. The intellectual and the cultured forced by common circumstances, he said, are leaving the cities for the country where they become the leaven of the new movement.

## GENERAL MAURICE SAYS WAR IS OVER

The grand jury report in the Herrin murder cases has been made public and also a long statement by one of the attorneys for the defense couched in somewhat violent language. It is unfortunate that this case is being tried so extensively in the newspapers before the trial is called.

The Henry Claws market review this week speaks optimistically.  
"There have been during the past week several important indications of industrial improvement. The percentage of activity at steel mills is now estimated as from 60 to 65 per cent of capacity and fuel conditions are much better than have been anticipated. In copper metal, export and other demands are proving exceptional."

The one a murderer; the other the greatest man-hunter of the Northwest Royal Mounted, compelled by his need to bring to reckoning the very man he had promised to protect.  
And, in the back of each one's mind, the image of the girl they both loved.  
**"You Are No Longer a Brother of Mine; You Are a Criminal and—I Am the Law."**  
Picture the mental anguish of a man—the greatest man-hunter of the Royal Mounted—compelled to capture, dead or alive, not only a brother officer in the service, but his own younger brother whom he had sworn to protect and keep straight—the fiancée of a girl for whom he himself would have laid down his life.  
This is but one of the tense dramatic incidents in the most gripping, soul-stirring story ever told on the screen.

**BERTON BRALEY'S DAILY POEM**  
**The Enchanted Forest**  
BY BERTON BRALEY  
THEY say that the Forest of Arden Is peopled with Youth alone! When the arroyos start to harden, When grizzled the hair has grown, No more in these haunts of wonder Shall you wander the pathways sweet, No more shall you saunter under The shade where the branches meet.  
BUT, the Forest was made for lovers, And there is no age to love, And the same enchantment hovers In the heart and spirit of Whoever knows the glory Which glows in his loved one's eyes, And the thrill of the old, old story The spell of which never dies.  
THEY say—and their words are truthful— That the Forest of Arden's made For those who are blithe and youthful To linger beneath its shade; But you shall find gray-haired sages Its deils and its glens among, For lovers may be all ages But love is forever young.

**TERRIBLE JEWELS**  
(N. E. A.)  
The Russian crown jewels, offered for sale by the Bolsheviks, are advertised as having a value of \$60,000,000,000.  
Such is the estimate of Farber, the French jewel expert. This stupendous sum, in rough figures, is equal to all the money that will be earned this year by all Americans combined. And yet the Russian crown jewels are displayed on a table about 12 feet long and 8 feet wide, scattered rather loosely on its surface, not played up.  
Imagine that—the work of all Americans for a year, concentrated in a couple of pecks of "glass" and exhibited to international gem brokers on a single table!  
It is preposterously ridiculous. For practical purposes these jewels are worthless. Their value exists only in the imagination of man, a form of self-hypnotism.  
Many famous jewels in this collection of the late czar and czar-

**WINCHESTER PASTOR IS GIVEN SURPRISE**  
Rev. W. R. Johnson's Sunday School Class Planned Pleasant Surprise for Him Monday Evening—Other Winchester News.  
Winchester, Sept. 25—Rev. W. R. Johnson preached his farewell sermon Sunday morning and expects to go into evangelistic work about October 1. His congregation and friends are sorry to see him leave and wish him success. Monday evening his Sunday school class gave him a complete surprise. Mrs. Johnson sent her husband to the church about six o'clock to attend a committee meeting, and when he opened the door about fifty members of his class greeted him.  
A fine 6 o'clock dinner was awaiting him, the menu consisting of fried and pressed chicken, salads, pickles, cake, ice cream and coffee. A program of toasts was enjoyed and altogether the occasion was a very pleasant one socially, and will long be remembered by the pastor and his family and the members of his class.  
Mr. and Mrs. Ornsby Dawson of Jacksonville visited Sunday with their daughter and family here.  
Miss Mildred Martin of Jacksonville arrived Sunday to enter school here. Her father has purchased the residence of William O'Donnell in the northeast part of town and expects to remove to Winchester in a short time.

**R. V. SHOEMAKER RETURNS FROM PEORIA**  
Robert V. Shoemaker, who has been working the past two months in Peoria on the Transcript, returned from that city Sunday by automobile, making the drive with his father, Raphael Shoemaker, 336 West College avenue. His return was made necessary by injuries received in an accident in Peoria, in which he, with two other pedestrians, were run down by an automobile, and dragged perhaps twenty feet underneath the car, which was traveling at a slow rate of speed. Mr. Shoemaker's plans are indefinite, depending greatly upon his physical condition. It is probable that a complete rest, with literary and theoretical music studies as a vocation, will be his program for a while. He is considering several part-time enterprises, both for present and for future possibilities.  
While in Peoria Mr. Shoemaker broadcast two short musical programs from the Journal-Transcript wireless station, with his cousin, Miss Dorothy Dunn, as accompanist.

**WANT COAL CARS LOADED ABOVE CAPACITY**  
The Wabash railroad in a letter issued to Coal operators and shippers urges that cars be loaded to full visible capacity or up to 10 per cent above the marked capacity. The purpose is to thus increase the movement of coal with the same amount of equipment.  
The Wabash management says that railroads are now moving cars 24 hours each day, and that in so far as possible cars should be loaded and unloaded the day that they are placed. "More tonnage and more mileage out of every open top car than has ever heretofore been attempted by the railroads" is the motto of the Wabash.

## A SWEET LITTLE BABY BOY

Makes a Bright Spot in  
Every Home. A Comfort  
in Years to Come

Park Rapids, Minnesota.—"I have taken your medicine—Lydia E. Pinkham's Vegetable Compound—when I was a girl for pains and before and after my marriage. I now have a sweet little baby boy and will send you his picture if you wish to publish it. My sisters also take your medicine and find it a great help, and I recommend it to those who suffer before their babies are born."

Mrs. Wm. JOHNSON, Box 155, Park Rapids, Minn.  
To marry and arrive at middle age without children is a great disappointment to many women. Think of the joy and comfort other women have in their children as they grow older.  
Lydia E. Pinkham's Vegetable Compound has helped to bring great happiness to many families by restoring women to health. Often the childless home is due to a run down condition of the wife, which may be helped by Lydia E. Pinkham's Vegetable Compound. It brought health and happiness into the home of Mrs. Johnson. **WE'LL MAKE FLAG  
STONE WALKS SAFER**

Central Committee Will Give this Matter Early Attention—Brief Council Session Held.

The flagstones in the business district which are in dangerous condition or in need of repair will receive early attention. At a meeting of the city council Monday night this matter was referred to the public improvement committee and city attorney for action.

It was after report had been made by Alderman Sorrells with reference to the bad condition of certain flagstones that the committee was authorized to investigate and take whatever action is necessary.

Mayor Crabtree reported the resignation of Andrew McNamara as a member of the plumbing board and named Bert Wyatt as his successor. The nomination was confirmed.

There was some discussion of certain city affairs and the council then adjourned, the session being one of the shortest on record. Mayor Crabtree, City Clerk Scott and Aldermen, Sorrells, Harman, Chapin, Ehnle, Loneragan, Flynn and McGinnis were present.

SEARCES FOR GUNMAN

(By The Associated Press.)  
STEUBENVILLE, Ohio, Sept. 25.—Posse of deputies from three Ohio counties and 500 citizens searched Jefferson, Harrison and Belmont counties tonight in an effort to apprehend a gunman who while three companions waited outside today walked into the first national bank of Hopedale, 15 miles west of here and shot and probably fatally wounded the cashier, George C. Whittaker, 29.  
The only clue the authorities have is half a thumb which police believe belongs to one of the bandits who is thought to have caught his hand in the door of the automobile and amputated his thumb as they made their getaway.  
Jefferson authorities scout the bank robbery theory and believe

the gunman had been hired to kill Whittaker.  
The condition of Whittaker is reported by hospital physicians here where he was brought after the shooting as serious.

PETROGRAD HOPING FOR BETTER DAYS

Look for Transfer of Capitol; From Moscow—Little Business Transacted in City Now.

Petrograd—Hope that some day the capitol of Russia will be transferred back to Petrograd is buoying up the spirits of many residents of this ghost city that Peter the Great built to serve as the center of Russia's power.  
No official word, not even a semi-official hint, has been given that the Bolshevik regime will return the capitol here from Moscow, but many Petrogradites base their hopes that this will occur on the fact that Petrograd was and is far more fitted to house government offices than overcrowded Moscow.  
If the time does come that the Bolshevik officials lose their fear of attack from outside, these Petrograd residents say the government inevitably must return to the city that offers it comfortable quarters and immediate proximity, by land and sea, to Western Europe. While the fear of attack exists, these same features of Petrograd's location make it a dangerous site for a capital. Finland is too close, and the Finnish gulf and the Neva offer anchorage for foreign warships.  
Strawa citizens are now buying up Petrograd's property and holding it against the day when the now almost depopulated city shall again be the crowded capitol.  
The Petrograd port has shown great activity this summer, but most of the factory chimneys of the city and suburbs are still smokeless, and the streets, as compared with busy Moscow, seem like those of a country village.  
A few pedestrians, an automobile or two; now and then a slow moving horse drawn truck; and the scattering of cabs in the great broad avenues laid out by Peter the Great to make Petrograd magnificent, seem lost in the city's spaciousness.  
Great government buildings that border the plazas and squares are now occupied by small bureaus of the main ministries at Moscow. Huge palaces are empty, occupied only by caretakers, or transformed into museums, open but a few hours each week and even then visited only by sightseeing tours, and now and then a little group of are students.  
Many shops are open, selling mostly second hand furniture and costly bric-a-brac from the houses of the once great, but business is dull and money is much scarcer than in speculation mad seemingly prosperous Moscow.

FINICKY!  
"Lad" Chases Only One Make Auto  
Psychologist Tells Why

EAST ORANGE, N. J.—The reporter, the photographer, and the psychologist silently watched the dog. The experiment was about to begin, and the observers nervously waited.  
Lad, the collie, was the calmest member of the group gathered on the lawn.  
Suddenly a limousine swung around the corner. The collie cocked a mildly interested ear. Then the flivver rattled by. Lad wrinkled his nose and then sleepily buried it in his paws.  
A touring car appeared in the distance—an ordinary, medium-priced machine of popular make. A sleeping memory stirred uneasily in the collie's brain and gave physical reflection in the stiffly cocked ears.  
The car approached. When the roar of the engine reached his ears, Lad leaped to his feet. He was over the hedge at a bound and tore after the touring car in a mad frenzy of frantic barks.  
"There you see," said the owner, Mrs. Maxwell Chase. "Lad will sit here quietly while a dozen automobiles go by. Not one interests him. Then a machine of that particular make appears.  
Without exception, he tears after it. I would like to know why?"  
Modern psychology is supposed to uncover these buried mental processes. What were the suppressed desires in Lad's subconscious brain that impelled him to chase a particular make of automobile?  
Miss Evelyn Garfield, graduate student in psychology at Columbia university, probed the subconscious mind of Lad. This is her analysis of the canine brain.  
"A moving object," she says, "is always an attention getting stimulus. 'Lad' is based on protection and food-getting instincts of dogs."  
"But why does he pick out one type of machine," she was asked.  
"The dog," the psychologist responded, "has a keen sense of sound as well as of smell."  
"Now if Lad had once belonged to an owner who had that kind of a machine he probably learned to recognize it by its sound as well as its smell."  
Then Mrs. Chase broke in.  
"Why, yes, we did have a car like that. But it was ever so long ago, when Lad was a pup less than a year old."

**MINE OPERATORS SHOW FORESIGHT**  
Lake Superior Iron Ore Operators Kept Mines Running All Winter—Result Was Plenty of Ore For Big Demand for Past Winter.  
Duluth, Minn., (By the A. P.)—Foresight of Lake Superior mining operators in having their underground properties work full blast last winter has gone a long way toward keeping iron ore moving from the mines to the docks, thence down to the lakes at a rapid rate of speed, according to vesselmen.  
At the beginning of the 1921-1922 winter mining season and after an exceptionally poor summer, mining men announced that in order to give work to hundreds of miners who otherwise would be unemployed and to assure ore stocks sufficient to meet the demands of the expected better business period, many of the underground mines would remain open for the winter.  
In the middle of the new booming ore-shipping business the old and the new ore stock piles are rapidly disappearing and the open pit and underground properties are being rushed at top speed to supply the demand. Several open pit mines, abandoned for the season, have been reopened.  
Virtual exhaustion of the avail-

able stock piles has been welcome news for it means, according to experts, that the underground properties will be forced to operate at capacity rate during the winter to guarantee early next year delivery.

**ALTON PLANS FOR SENIORITY RIGHTS**  
BLOOMINGTON, Ill.—A plan for seniority rights for shopmen announced by the Chicago and Alton railroad here provides that all old employees returning to work after September 18 will have, as among themselves, the same seniority they enjoyed when they went on strike, but that they will be superseded on the lists by the old employees who remained at work and the new employees who worked during the strike.  
There are now 100 machinists on the company's payrolls here, and these are to have priority, it is said. Should one of the old employees return to work today, if he stood 56 on the old roster he would stand 156 on the new, losing 100 points.  
The company plans to forfeit no pass privileges, and expects to give each returning man the same privileges, and expects to give each returning man the same privileges he enjoyed when he went on strike, with the exception of the changed seniority status, according to the announced plan.

## Instant Quaker Oats

Cooks to perfection in 3 to 5 minutes

The Quaker Oats flavor has won millions of the world over. This brand dominates wherever oat lovers live, for we flake it from queen grains only.

Now there's a quick-cooking Quaker, made from those same queen grains. It cooks in 3 to 5 minutes. It is the quickest-cooking oats in the world.

The oats are cut before flaking. They are rolled very thin and partly cooked. So the flakes are smaller and thinner—that is all. And those small thin flakes cook quickly.

Say which you want. In either regular or Instant you get the finest flavor oat flakes ever had. In Instant you get the quickest-cooking oat dish in existence.

There are now those two great reasons for insisting on this brand.

## COUNTY CENTRAL COMMITTEE MET

Republicans Gathered at Court House in Harmonious Meeting—Earl B. Searcy and Samuel Moore Present.

Harmony and hard work if the republican ticket is to win this fall was voiced by all the speakers at the meeting of the Republican County Central Committee held at the Court house Monday.

Nearly every member was present when Chairman Wemple called the meeting to order and asked Secretary Gregory to call the roll. Nearly all of the county candidates were present and Earl B. Searcy candidate for Senator and Samuel B. Moore candidate for the legislature were also in attendance.

The committee first transacted some minor business before asking for remarks from the candidates and various speakers. A. E. Williamson was named as chairman of the executive committee and F. J. Blackburn as chairman of the finance committee.

Secretary Gregory was instructed to write a letter to W. L. Alexander, a member of the committee expressing the regret of the members that he was unable to be present because of illness and the hope that he would soon be able to be out again.

Chairman Wemple then called upon the various county candidates who responded briefly and pledged themselves to work for the election of the entire ticket. All of them expressed themselves as well satisfied with the present outlook for the success of the ticket from top to bottom.

Those who responded were: Charles S. Black, candidate for sheriff; G. A. Dunlap, candidate for county commissioner; Chester Colton, candidate for county superintendent of schools; Judge Paul Samuel, candidate for county judge; and G. L. Riggs, candidate for county clerk.

Samuel B. Moore, candidate for the legislature expressed his pleasure at being present. He also said he was well pleased with the vote he received in Morgan county at the primary. Mr. Moore urged working together as the only method to win in the election and told his committee that he would co-operate in any work they pursued to do.

Earl B. Searcy, candidate for state senator, spoke more at length than the other speakers. Mr. Searcy emphasized the fact that it was impossible for any official in public life no matter how sincere or honest his purposes may be to please his entire constituency by his official acts.

months," the speaker said, "but think as we will, we must admit that a long step has been taken in the direction of lower taxes. The first step must be followed by longer strides."

Following along this line Mr. Searcy said that this same effort in reducing taxation must be made in Illinois. That it would be absolutely up to the Fifty Third General Assembly which convenes next January to set a record for genuine, not fake, economy.

"When matters have reached the point that the average Illinois farmer makes only taxes and the barest living off of acreages that once paid a fair income, it is high time to turn a deaf ear to elements interested only in adding to the payrolls," Mr. Searcy said.

The speaker also expressed the hope that republicans who are considering independent political schemes will remain in the party fold and help elect the ticket chosen by the party.

In closing Mr. Searcy said, "Party success will come in November if we all hold to the ideals and legends of the party, resolve steadfastly to serve, not rule, the voters who honor us with their support."

State Auditor Andrew Russell was called upon and responded briefly. Mr. Russell said that the republicans must not go to sleep, because if they did they might wake up the morning after the election and find that the day had been lost. Organization to get out the vote on election day Mr. Russell said was the most essential thing. If this was done he believed that every man on the ticket from top to bottom would be elected.

States Attorney Robinson voiced the sentiment of the other speakers. Mr. Robinson said the republicans had nothing to be ashamed of in the record of the party since 1921. He believed that the present ticket was one of the best ever nominated and that they could go out and talk for every man on it. He told the members of the committee that he was at their service if they saw fit to call on him.

Praise President  
H. H. Bancroft always has something of interest to say when he is called upon. Mr. Bancroft spoke of his contact with President Harding at the national republican conventions in 1916 and 1920. Mr. Bancroft said that his conduct and bearing at that time and his actions as president stamped him as one of the greatest men that ever graced the presidential chair. Getting down to the local situation Mr. Bancroft said that success at the polls was only to be gained by preparation and work before election day and that if this work was done he had but little doubt about the success of the entire ticket.

J. Marshall Miller said that he could add but little to what had already been said. Mr. Miller said no apology need be made for either the national or state administration and that he was willing to make the fight on the record of the party since assuming the lead left by eight years of democratic administration of the county. Speaking of the local candidates Mr. Miller said that every one was capable and that the party could go out and make a campaign on their ability to fill the offices which they sought.

Should Enforce the Law  
Judge M. T. Layman one of the old wheel horses of the republican party and a veteran of many campaigns was the last speaker. Judge Layman praised the administration of President Harding and believed that before his term expired that he would place the country back on a prosperous basis.

One point Judge Layman emphasized was the enforcement of the law. "If republicans who are in office, or who are elected to office enforce the laws without fear or favor the people will approve of the official acts and in this way will credit accrue to the republican party," Judge Layman said.

The committee adjourned and the gathering spent some time in getting acquainted with the candidates and discussing plans for the campaign. Taken all in all the meeting was one of the best in the history of the republican central committee and the spirit of harmony that prevailed augurs well for republican success in November.

### DRUG SMUGGLING IN BURMA IS AN ART

RANGOON, Burma—(By the A. P.)—The drug smugglers of India and Burma, thru long years of experience, have developed a finished system of operations which has little resemblance to the more or less crude and haphazard methods of run runners in the United States.

The men who finance the smuggling of drugs, says R. K. Anderson, superintendent of the Burmese Excise Department, are to all appearances respectable, well-to-do merchants, with flourishing businesses in piece goods, rice or timber which hide their real occupations as traffickers in opium, cocaine, morphine and hemp gods. These men do not handle the drugs, but leave the details to hosts of underlings. If an underling is arrested, fined and sent to jail, his principal pays his fine, gives him his salary and supports his family while he is in prison.

"That a certain man is a smuggler is well known to the authorities," reports Mr. Anderson. "In fact the suspect will cheerfully admit it. He knows that he cannot be touched unless the contraband is found in his possession." The chief source of protection to smugglers is the accessibility to bribery of those who are charged with the duty of preventing smuggling. They can make more money by failing to suppress smuggling than by suppressing it.

### WANTS NO MORE AMERICAN SCHOOLS

Constantinople—By the A. P.—According to the newspaper Teyhid Ekisi, the official organ of the Kemalists, the Council of Ministers has refused to grant any further permission for Americans to establish schools in Anatolia.

This measure does not in any way affect the existing American colleges at Tarsus and Marivan, and other missionary schools in the interior.

#### AGREEMENT REACHED IN FOUR COURT SUITS

Stipulation Filed Monday Indicates Disagreements Between John R. Robertson and Julius Strawn Estate Have Been Settled.

A number of cases wherein the Julius Strawn estate and John R. Robertson et al. were interested were dismissed in the circuit court Monday. A stipulation was placed on record showing a complete agreement as between the Strawn estate and Mr. Robertson. Julius E. Strawn died in 1914 and in 1915 a bill was filed by the late Judge E. P. Kirby on behalf of the administrator against Mr. Robertson, claiming an interest for the estate in certain lands in the possession of Mr. Robertson.

At a more recent date a bill for an accounting was filed which related to Mr. Robertson, the Jacksonville National Bank, the late Henry Oakes, John R. Robertson and A. A. Curry as trustees. It is the understanding that the agreement made a matter of record yesterday settles up all of this litigation.

In the various cases Bellatti, Bellatti & Moriarty and John J. Reeve appeared for the Oakes estate, John R. Robertson and A. A. Curry.

J. Marshall Miller was an attorney for the Wood estate and W. N. Halgrove appeared as guardian ad litem for certain minor defendants. Gates Strawn as administrator of the estate of Julius Strawn was represented by Logan Hay, W. T. Wilson and Judge E. P. Brockhouse. The language of the stipulation placed on file yesterday is given below.—The caption indicates the four suits which are thus dismissed.

Gates Strawn, as administrator of the estate of Julius Strawn, deceased, vs. Henry Oakes, et al. Julius E. Strawn, by Gates Strawn his administrator, vs. John R. Robertson, et al. Gates Strawn, administrator, vs. John R. Robertson, trespass on the case.

It is stipulated between the parties that all of the above titled causes and any other causes that may be pending in the circuit court of Morgan county, brought by Gates Strawn against John R. Robertson, and also all cross claims and cross bills that may be pending in any of said cases shall be dismissed at the cost of the defendant or defendants to the original proceedings, and Royal Oakes and Virgil E. Robertson, as administrators of Henry Oakes, deceased, as well as in their individual capacities, and A. A. Curry hereby agree to and with each and all of the other parties hereto that they will pay all of said costs which may be adjudged against the defendants or any of them by reason of this stipulation and further agree to refund to Gates Strawn, as administrator of Julius E. Strawn any sums which the said Gates Strawn as such administrator or in his individual capacity may have advanced for court costs in any of the causes covered by this stipulation and particularly will pay upon the execution of this agreement, to said Gates Strawn as administrator of Julius E. Strawn the sum of two hundred two dollars (\$202.00) heretofore paid by said Gates Strawn to the master in chancery on account of testimony taken before the master in one of said causes.

It is further agreed that this stipulation shall be signed by the said Gates Strawn, as administrator of Julius E. Strawn, by Royal Oakes and Virgil E. Robertson as administrators of Henry Oakes, as well as individually, and by John R. Robertson and A. A. Curry by their personal signature and that otherwise this stipulation may be signed by counsel for the parties to the cause covered by this stipulation.

It is further stipulated that a copy of this stipulation shall be filed in the above entitled cause of Gates Strawn as administrator of Julius E. Strawn vs. Henry Oakes et al. above referred to, and that at the first opportunity motions may be entered by counsel for any of the parties hereto in any and all of the causes covered by this stipulation for the dismissal of the said causes as per this stipulation.

Gates Strawn as administrator releases John R. Robertson from all claims or demands of whatsoever kind that the estate of Julius E. Strawn holds against him and John R. Robertson releases the estate of Julius E. Strawn, deceased, and Gates Strawn individually, from all claims or demands of whatsoever kind that he may hold against said estate or against said Gates Strawn, individually.

Dated at Jacksonville, this 25th day of September, A. D., 1922.

Royal Oakes, Virgil E. Robertson, Administrators of estate of Henry Oakes.

Royal Oakes, Virgil E. Robertson, A. A. Curry, Gates Strawn, administrators of Julius E. Strawn, deceased.

John J. Reeve, attorney for all other defendants.

John R. Robertson, Bellatti, Bellatti & Moriarty, solicitors for Stuart E. Pierson, executor, and the adult legatees of Mary Wood, deceased.

#### RETURN FROM VISIT ON PACIFIC COAST

Mr. and Mrs. H. M. Andre and Daughter Have Been in West for Past Six Weeks—Attended Triennial Episcopal Convention

Mr. and Mrs. H. M. Andre and daughter, Miss Eleanor have returned to their home in Jacksonville after a six weeks' trip to the Pacific coast. The trip out was made by way of Arizona and the southern route and a majority of the time was spent in northern California where Mr. and Mrs. Andre were guests of relatives.

In Oakland they visited at the home of Mrs. Andre's brother, Mr. Fred Royland, and in San Francisco they were entertained at the home of Mrs. M. E. Royland, Mrs. Andre's mother.

During the early part of September they went to Portland, Oregon, where they attended the Triennial Conventional of the Protestant Episcopal Church of the United States. Mr. Andre was in attendance as a lay delegate from the Diocese of Springfield and he reports a most interesting and successful convention. The convention was attended by one hundred and thirty bishops and five hundred lay and clerical deputies from the different dioceses and missionary districts of America and other countries. The delegates came from all parts of the world including China, Japan, Liberia, Porto Rico and South America. There were also two archbishops from the Orthodox church and a visiting archbishop from Canada in attendance at the convention.

#### Attended Convention.

The sessions of the convention were held in the Portland Municipal Auditorium and residents of Portland were unanimous in saying that the opening service of the convention was the most impressive ceremony ever witnessed in the city. It was attended by about six thousand people and was a most remarkable gathering. The professional included one hundred and twenty bishops three archbishops and a vested choir of two hundred and fifty voices. The Women's Auxiliary of the Church also held a convention in connection with the church gathering and this was attended by several hundred women from different parts of the country. The people of Portland did everything in their power to show courtesy and hospitality to the visitors and Mr. Andre said that they were accorded every possible consideration by the city and its residents.

The most important work accomplished by the convention was the revision and enrichment of the Prayer Book as submitted by the Prayer Book Commission. These revisions will probably not come into general use in the church for a number of years as it is necessary for all the proposed changes to pass the house of bishops and the house of deputies at two consecutive conventions before becoming a part of the doctrines and laws of the church.

Mr. and Mrs. Andre and Miss Eleanor made the return trip by way of the Canadian Pacific, coming thru the Canadian Rockies and stopping at Victoria, Vancouver, Lake Louise and other points. They spent several days with friends in Chicago and arrived in Jacksonville on Sunday.

#### CARD OF THANKS

We wish to take this means of thanking the friends and neighbors and especially the Sisters of Our Savior's hospital and doctors who have been so sympathetic and helpful in our recent accident.

#### HOME COMING AT CENTRAL CHRISTIAN

Hundreds Attended Three Special Services Sunday—Sermons Delivered by Rev. M. L. Pontius and Rev. W. H. Marbach.

Sunday was a great day at Central Christian church when the eighth annual home-coming was observed. There were three special services and a splendid basket dinner was served at noon, with about 300 present.

Music was furnished by Mademoiselle Colard, and Miss Beatrice Horsburgh of the College of Music, and Mrs. Elmer Ellis. At the first service Rev. Mr. Pontius had for his theme, "What is an Opportunity?" the sermon being designed especially for college students. There is a large class of students at the church and Mrs. Roy Scott is the teacher.

At the evening service "God's Presence in the Home," was the theme of Mr. Pontius, and many of the people he has married during his ministry here were in the audience.

Some special interest attached to the issue of "The Front Rank," a St. Louis Christian church publication, which presented a special illustrated article with reference to the local church and the work it is doing.

In the afternoon Rev. W. H. Marbach, pastor of State Street church, preached a sermon, having for his subject, "Why I Believe in the Church," and thruout he emphasized belief "because of the place of the church in the past, present and future."

Referring to the future Mr. Marbach said:

"I believe in the church because I believe in the possibility of a better life for any and every class, kind or condition of men. The church patiently insists upon man's striving for the good, the true and the beautiful.

"I believe in the Church of Jesus Christ because it is never satisfied with the existing order of society. It engenders a divine discontent which is wholesome in creating a better and more progressive world. Its Lord always ahead of us, saying 'Follow Me.'

"I believe in the church because I believe in God's purposes work for a new and better world. I believe in the coming of His kingdom, and that that coming can alone come as men and women, boys and girls, unite to do God's will, as that will is revealed in and thru Jesus.

"I believe in the church because it is the one institution which promises hope for the future. The church holds the only key to our international and national difficulties.

"I believe in the church of Jesus Christ because I believe that the salvation of a commercial civilization lies in a non-commercial, non-spirit, organization.

"I believe in the church because these are critical and epoch making days. He can help make a transformed world. With the future of religion hangs the future of humanity. As goes the church so goes the world."

By way of conclusion the minister suggested:

"I believe that a church is far more easily improved from within than from without. Recall the words of John S. Mill: 'If all were to desert the church, who put a large and liberal construction on its terms of communion, or who would wish to see those terms widened, the national provision for religious teachings and worship would be left utterly to those who take the narrowest the most literal and purely textual view of the formulars. Therefore, if it were not a matter of impertinence in me to tender advice in such a matter, I would say, let all who conscientiously remain in the church. A church is far more easily improved from within than from without.'"

#### GIRLS STEP LIVELY IN GREEN HOSE

Following closely upon the heels of the proclamation made by the Dorm Court out at Illinois College, for the freshmen boys, came the mysterious order of the sophomore girls, demanding that the freshmen girls appear Monday morning with boudoir caps and green stockings.

The girls of the first year class met the ordeal bravely and appeared in various models and styles of caps, some becoming, some homely, and others ridiculous. Upper classmen served as self-appointed inspectors. The boys have a little edge on the girls because the public is accustomed to the green cap but the boudoir caps and green hose are new.

Dorm court has taken an active hand in the affairs of the college of late. Several "Freshy" boys ventured to stay up town beyond nine o'clock Saturday night and were caught in the act by prowling upper classmen. Others were found holding conversation with "females" on the campus and other serious charges were brought before Dorm court Monday night. The freshmen boys are in constant fear of getting a summons to appear in Dorm court.

#### MRS. VAN GUNDY TO BE BURIED TOMORROW

Chapin Woman Died Very Suddenly Sunday from Valvular Disease of the Heart—Inquest Held.

Mrs. Louise Van Gundy, wife of George Van Gundy, residing southwest of Chapin, died suddenly about six o'clock Sunday evening, while in the yard of her residence. The cause was found to be heart failure.

Upon notification, Coroner C. A. Rose of this city went to the home and conducted an inquest. Roy Van Gundy, a son, and Dr. J. H. Fountain of Chapin, were witnesses.

Mrs. Van Gundy had been feeding chickens, according to a statement by her son, and he had been doing work about the barn. He saw her lying on a wood pile as he approached the house. After calling his father they carried the body into the house, and then Dr. Fountain was called, but it is believed Mrs. Van Gundy was dead when the son found her. The jury returned a verdict of valvular heart disease. The jury was composed of George H. Coulson, foreman; Irvin Coulson, Henry F. Depner, Fred Middendorf, Frank Holliday and Ralph Withee.

New Orleans Preparing to Cast  
Aside Modernism and Re-  
establish the Atmosphere of  
Continental Europe.

NEW ORLEANS—New Orleans  
is preparing to cast aside its ve-  
neer of modernism and to re-  
establish the atmosphere of con-  
tinental Europe during the Ameri-  
can Legion national conven-  
tion here October 16-20. Entertain-  
ment plans for the 150,000  
Legionnaires and visitors expect-  
ed at the gathering include fea-  
tures typical of the south and of  
the cosmopolitanism encountered  
overseas.

One of the leading events of  
the program is a French carnival  
night, to be directed by a number  
of French societies whose histories  
date back to colonial days. The  
Legionnaires will be guests at  
three carnival balls, similar to  
those held during the famous  
Mardi Gras celebrations. There  
be the customary kings and  
queens with their picturesque  
courts and retainers. The veter-  
ans who desire informality will  
be able to participate in the street  
dances to be held on three public  
squares.

Delegates to the convention  
sessions, which will be held in the  
morning, will meet literally  
"down on the levee." A large  
covered pier, nearly one thousand  
feet long and four hundred feet  
wide, astride the Mississippi river  
levee, will be used as the conven-  
tion meeting place. It will seat  
14,000 delegates and visitors. One  
half will be devoted to the con-  
vention proper and the other half  
to telephone and telegraph booths,  
committee rooms, ticket validat-  
ing offices and concession booths.  
The interior will be decorated  
with flags of all Allied powers,  
Legion emblems and banners,  
and palm trees.

The business streets will be  
illuminated by 38,000 bulbs and  
their names changed to destina-  
tions more appropriate to the  
Legion gathering. A "Court of  
Honor of Nations" will be estab-  
lished in ten blocks of the prin-  
cipal streets, with corresponding  
flags and banners of Allied  
Nations. Insignia of all divisions  
in the American army will be  
suspended across the "Streets  
of the Divisions."

In the port and on Lake Pon-  
chartrain a naval show will be  
held. The U. S. S. Birmingham,  
flying the flag of Rear Admiral  
Cole, commanding the special ser-  
vice squadron, six destroyers and  
twelve seaplanes from the naval  
air station at Pensacola, have  
been ordered to New Orleans  
during the convention and will  
form the representation of the  
United States. Invitations to  
send ships have been forwarded  
through the State department to  
naval authorities of England, in-  
cluding Canada and Australia,  
France, Italy, Japan, Brazil and  
Cuba.

**The Truthful  
Trade-mark of  
the Gulbransen**

A baby's hand on a pedal of the Gul-  
bransen causes it to play. The trade-  
mark tells a truthful story.

It is the exclusive Gulbransen fea-  
tures—the fine craftsmanship—the  
patented design—that make "easy to  
play" a fact.

Naturally the results you obtain on  
the Gulbransen are far above the aver-  
age. The instrument is flexible, respon-  
sive, simple. Even a novice, with the  
aid of Gulbransen Instruction Rolls—  
also an exclusive idea—quickly learns  
to play well.

When buying a Gulbransen, you are  
protected as to price. Mark this: no  
matter in what town or from what  
dealer you buy a Gulbransen the price  
paid will be \$700, \$800, \$905 or \$965,  
according to the style selected. The re-  
tail selling figure is branded in the  
back of every Gulbransen at the fac-  
tory. Its price is established—its value  
unquestioned.

The baby trade-mark stands for real  
music, easily played. It appears on  
more player-pianos each year than any  
other trade-mark or name. It is the  
emblem of Gulbransen ideals, ability,  
experience and policies.

# Market Report

By The Associated Press

## UPWARD MOVEMENT IN STOCK MARKET

NEW YORK, Sept. 25.—The upward movement in prices was resumed in today's stock market, but trading was relatively light and fluctuations generally were within narrow limits. A heavy accumulation of week-end buying orders imparted a strong tone to opening quotations but when these were disposed of the market lapsed into dullness. Short pressure against some of the none dividend paying rails and speculative industrial favorites later caused some irregularity, but the general list held up well under the selling pressure. Revised reports of mergers and capital readjustment were partly responsible for the continued rise in Standard Oil shares.

Speculative selling of some cheaper railroad shares apparently was in anticipation of the some poor earnings reports for August coming out in the next few days. Rock Island was the principal target of selling pressure showing a net loss of 1 point on a turnover in excess of 20,000 shares.

Baldwin and Studebaker were subjected to attack by professional interests in the late afternoon trading each declining a point or more. Sales totalled 705,300 shares.

Call money opened and renewed at five per cent but eased off to 4 1/2 in the early afternoon and held at that figure until the close. Time money was quiet, the shorter maturities being quoted at 4 1/2 to 4 3/4. Most of the commercial paper is quoted at a rate of 4 1/2 per cent.

A large offering of commercial bills caused a slight recession in some of the foreign exchange rates. Demand sterling bills were quoted just under \$4.42 and French checks were selling on a 7.61 basis.

Liberty Bonds were quite irregular with most of the changes downward.

Total bond sales (par value) were \$11,049,000.

## PRODUCE MARKET REVIEW

(Prepared by Swift & Co.)

Poultry receipts increased during the week with a little easier tone at the close. A larger movement is noted in the country, and with full arrivals in prospect, the market tendency is toward lower values.

Poultry packing plants generally have sufficient help to take care of a liberal volume of poultry. Even marketing is suggested, in order to prevent a glut a few weeks hence.

Due to lighter receipts and continued demand from the consuming trade, prices for butter and butterfat have advanced. The higher tariff duties now in effect probably will prevent the importation of much foreign butter in the near future.

The United States Department of Agriculture, in its report of September 19, shows the following comparative stocks of butter as of September 1:

1922 . . . . . 112,062,000 lbs.

1921 . . . . . 92,292,000 lbs.

Excess . . . . . 19,770,000 lbs.

Extra fall and winter feeding will help keep up the milk flow and bring increased returns.

A good demand for fresh eggs was noted in all markets, with prices generally ruling higher for fine stock. Eggs that have been held are not wanted and do not command top prices.

Best results are obtained by collecting eggs promptly and marketing each week.

The seaboard reported 300,000 to 40,000 bushels worked for Europe.

## MATERIAL DOWNTURNS IN WHEAT VALUES

CHICAGO, Sept. 25.—Material downturns in the value of wheat received today from apparent likelihood of a peaceful settlement with Turkey. The market closed unsettled 13 to 2 1/2c net lower with December \$1.04 to \$1.04 1/2 and May \$1.08 to \$1.08 1/2. Corn finished 1/2c of to 1/2c net gain. Oats at 1c decline to a shade advance, and provisions varying from unchanged figures to a rise of 3/4c.

As a rule wheat traders started with distinctly bearish views about the probable outcome of the Dardanelles crisis and held to that outlook through the day, although considerable buying at times took place owing to reports indicating it was unsafe to assume that reason for anxiety as to further warlike developments had been banished. Hedging sales from the northwest and slowness of export demand with weakness of Winnipeg prices, counted as an additional weight on the market here, the movement of the Canadian crop remaining heavy and December delivery at Winnipeg having gone to 10c under Chicago the widest difference since the Turkish situation became a market factor. Decrease of 6,000,000 bushels in the amount of wheat on ocean passage leaving about enough on it for two weeks actual needs tended somewhat to rally the market during the late dealings. The falling off in the aggregate of wheat afloat was partly offset by an increase of the United States visible supply total but the increase was less than had been looked for by many traders.

Corn and oats showed stubborn resistance to selling pressure, although averaging lower with wheat. Some European buying both of corn and oats was noted.

Provisions had an upward slant in response to higher quotations on hogs and because of better shipping call for lard and meats.

## Kansas City Livestock

## GIANTS WIN THEIR 10TH NATIONAL TITLE

Defeated Cardinals at New York Yesterday—Kelly's Hitting Responsible for Victory.

NEW YORK, Sept. 25.—New York clinched its tenth National League championship today when the Giants defeated St. Louis in a ten inning game, 5 to 4. It was the eighth championship won in New York under McGraw's leadership since 1904 and marks the first time since 1913 that a National League champion has repeated.

George Kelly's hitting was largely responsible for New York's victory. He tied the score in the sixth inning with a home run with Young on base and his single in the tenth after Young had been intentionally passed drove in Frisch with the winning run.

St. Louis made a brilliant stand in the ninth inning when New York had one run in, the bases full and none out, but failed to get over the run necessary to clinch the pennant.

## Relief is Found From Stomach Trouble

Hope for the millions of unfortunate men and women who are suffering from stomach trouble is sounded by Mrs. Anna Cooper, of 5259 Quincy St., Chicago, Ill. Mrs. Cooper was a victim of stomach trouble in its worst form but she was completely restored to health by taking Tanlac. She says: "About two years ago my stomach became terribly disordered and my strength commenced to leave me. I could not eat a meal without suffering torture. Tanlac has made me healthy and happy just like I was told it would." Undigested food ferments in the stomach and soon the entire system is filled with poisons. Tanlac was designed to restore the stomach to a healthy condition and build up the whole body. Millions everywhere have claimed its wonderful power. Get a bottle today at any good drugist.—Ad.

## Little Things May Decide a World Series

This is the fifth of seven articles written for the Journal by Eddie Collins of the Chicago White Sox. Collins has played in more world series games than any other major league player.

By EDDIE COLLINS

World's Greatest Second Baseman HERE are little things, considered of minor importance at the time of occurrence, and of which public knowledge, that enter into the outcome of many a world series.

For instance in 1910 the Athletics knew practically every ball the Cub pitchers were throwing in the first three games played. That's a pretty good "ace in the hole," you'll have to admit.

In 1913 there was a certain pitcher on the Giant team who unconsciously showed by his pitching motion what he was going to throw, and as a result he lost. Last year the Yanks sought to have the green canvas which acts as a background for the hitters at the Polo Grounds lowered during the series. After considerable argument McGraw complied. And the Yankee players now admit that it worked a greater hardship upon their hitting than they figured it would on that of the Giants.

## MCDONALD WINS TWO EVENTS AT COLUMBUS

Indianapolis Reinsman Takes Two of Four Races—Four Heats Required in 2:17 Pace.

COLUMBUS, O. Sept. 25.—Leon McDonald, Indianapolis horseman won two of the four class events decided at today's grand circuit races. With Bique he won the 2:19 trot and behind Doty he took first place in the 2:09 trot. There were ten heat winners in the 14 heats necessary to decide the four races two of them going into four heats each. After Lady Gratton, the favorite had won the first heat of the 2:12 pace, Bingen Wood, Jr., a second choice, took the second heat and Julianne the third. The fourth heat was won handsily by Bingen Wood, Jr.

## FLASHLIGHT GOLF IS NEWEST THING IN SPORTS

Charles City, Ia., Sept. 25.—Flashlight golfing is the newest thing in sports. With darkness threatening and three holes left to play in the inter-city tournament last night flashlights were introduced to aid in finishing the match. While one flashlight played on the pin and another on the ball Cooper of Austin, Minn and Blunt of Charles City, played the remaining holes in par, resulting in a tie match.

## DETROIT DEFEATED PITTSBURGH NATIONALS

Pittsburgh, Sept. 25.—The Detroit Americans, outplaying the Pittsburgh Nationals on the mound at the bat and in the field, won an exhibition game to day 5 to 2.

## Ex-Caddy is Champ.

EDDIE HELD of St. Louis, 19, won the public links golf championship of the United States at Toledo, O. Like Gene Sarazen, the open champion, he formerly was a caddy, on the Forest Park course, St. Louis. He is not much taller than the sticks he swings and about three times as tall as the cup he won.

If you have had trouble in getting a suit to fit you wish to call your attention to the fact that J. Capps & Sons have a special measure department where you can have a suit made to your measure from \$32.50 to \$47.50 which is absolutely guaranteed to fit.

T. M. TOMLINSON  
Mrs. Earl Fitch, who has been visiting relatives and friends in the city, has returned to her home in Peoria.

In 1914, owing to a misunderstanding between Managers Mack and Stallings, the Braves missed the use of Shibe Park for practice on the day before the first game. Stallings' players were led to believe that they had been denied the use of the field. As a result of this erroneous impression more hard feeling existed between the two teams than in any series in which I have ever participated.

Had Tough Time Josh Devore had a tough time of it fathoming the pitching of the Athletics in 1911, striking out four times in one game against Plank.

The next spring while en route to training camp, a number of Giants and Athletic players met in St. Louis.

Jack Murray, Doyle and Devore were talking together. Barry and I joined them. We exchanged greetings, but Devore didn't speak.

"What's the matter?" asked Doyle, "don't you know Barry and Collins?"

"How should I know them," Devore answered quickly, "I never got as far as second base in that series last fall."

There probably are just as wise and smart pitchers as Chief Bender, but for craftiness I've never seen his equal.

I'll never forget one play he pulled on no less a person than Manager Frank Chance of the Cubs in the 1910 series. Two on base, two out in the fourth game, being played in old West Side Park in Chicago.

## FRYMAN WAS TOO MUCH FOR DOKAYS

Held Dokay Team Without a Hit or Run—Hartman Also Pitched Great Ball for Dokays.

Pitcher Fryman of the Indians was too much for the Dokay team in the opening game of the series for the city championship at South Side Park Sunday afternoon. Fryman held the Dokays without a hit or run. He struck out 14 men, did not give a base on balls or hit a batter. Had it not been for two bobbles he would have entered the baseball hall of fame for pitching a perfect game.

Hartman also hurled sterling baseball for the Dokays He struck out 12 men, walked one and hit one. His only walk resulted in one of the Indians' runs. Hartman's support also wobbled, contributing five errors during the afternoon which figured in the run getting. Hartman also fielded his position in fine style.

There was some excellent fielding on the part of the Indians. Kohloff made a fine stop of Gillis' roller in the fifth getting Haney at second base. Wheeler and DeFrates also did some good work. Clark supported Fryman in grand style back of the bat. For the Dokays Jones played a nice game at first base.

The Indians scored one run in the first inning when would have been enough to win. Denney singled and went clear to third when Flynn threw the ball to center field trying to catch him stealing. He was squeezed in by Kohloff.

That was all of the scoring until the seventh, tho the Indians threatened in the fourth when Clark and Christopher were left stranded at third and second. In the seventh Hamm started by striking out. DeFrates was safe on Shelton's error. Fryman walked, the Hartman disputed Donahue's ruling saying there were only three balls on Fryman. Denney hit to Shelton; and DeFrates was forced at third. Wheeler tripled to right scoring Fryman and Denney. Wheeler stole home. Kohloff beat out a hit to Haney. He started to steal and went on to third when Flynn again threw the ball away. Barnes threw the ball by Shelton and Kohloff came on home. The score:
